

DUCHESNE-STRAWBERRY RIVERS DISTRIBUTION SYSTEM

** 1970 ASSESSMENT **

\$ 8,400.00

BASIS OF ASSESSMENT:

The 1970 Annual Water Assessment is based upon the Commissioner's Annual Report of Water delivered to each user during the year of 1969. This is in accordance with the minutes of the Annual Water Users meeting of March 12, 1969.

CALCULATION OF ASSESSMENT:

The commissioner's 1969 Report state that 263,651 acre-feet of water was diverted by the water users during the year of 1969. The 1970 assessment in the amount of \$ 8,400.00 is divided by 263,651.00 acre-feet which equals \$ 0.0318603002, which is the cost of one pro-rata acre-foot of water. This amount multiplied times the number of acre-feet of water reported as used during 1969 equals his or her pro-rated share of the 1970 Assessment.

PROOF:

263,651.00 ac/ft times \$ 0.0318603002 = \$ 8,400.00
